# Tilt Trailers

Loading just got a whole lot easier and safer with our full deck hydraulic tilt skidsteer trailers. Pequea tilt trailers' T-100 and T-200 decks tilt to the ground eliminating the need to navigate ramps when loading equipment. Pequea tilt trailers' internal tilt frame design lowers deck height and provides a 10-degree loading angle. This is an attractive feature to business owners with employees who regularly haul equipment, reducing the potential for equipment damage and/or bodily harm from loading accidents. Pequea tilt trailers deck widths are a full 81" between the fenders with no interference from the outer frame. All Pequea trailers meet DOT lighting requirements.

## Tilt Trailers

Specifications	T-100	T-200
Overall Length	22'8"	26'8"
Overall Width	102"	
Deck Length	18'	16'4" **
