Precision Topdressers

FX-650

**PEQUEA**  
Tradition In Progress®

The new FX650 by Pequea Turf is changing material handling as we know it! The FX650 can not only move material to bunkers, irrigation and reconstruction projects or act as a tender for smaller topdressers, but it will also evenly spread all kinds of material up to 40 feet wide. This topdresser can carry over 6 yards of material, drastically cutting out labor and excess trips to and from your sand pile.

Four large 33/15.5 x 16.5 turf tires mounted on two in-line walking axles provide very low ground pressure and also enable smooth and safe travel over uneven terrain. Another special feature is the ability to control the machine functions from your tow vehicle with our new wireless remote! You can broadcast material by operating the floor, twin spinners and the gates or load a small topdresser with the loading conveyor, ALL FROM THE SEAT OF YOUR TRACTOR! Call today about a product Demo.

Model:	FX-650 Material Handler/Spreader
Drive:	Tractor Hydraulic (6-10 GPM @ 1800psi req'd)
Hopper Capacity:	6 Cubic Yards Struck Level
Hopper Dimension:	31" x 108" at Bottom and flares to 72" x 108" at Top
