PEQUEA

A SKIBO COMPANY [®]

Deckover Trailers

Pequea's flagship trailer, the Deckover, has been such an industry leader throughout the past 15 years that most manufacturers have adopted the term "Deckover" in describing their own trailers. Although they have imitated our name, they have never duplicated our quality. We offer three different Pequea Deckover trailer models ranging from 7K GVWR through 20K GVWR. If you want to load your antique tractor, skid loader, or even your lawn mower, the standard beavertail, combined with various sized ramps, makes this an easy task.

Whether you're driving a half ton pickup or a dump truck, Pequea has a Deckover trailer just for you.

Deckover Trailers
