## CA5 - Clean Air Harvester

### Model

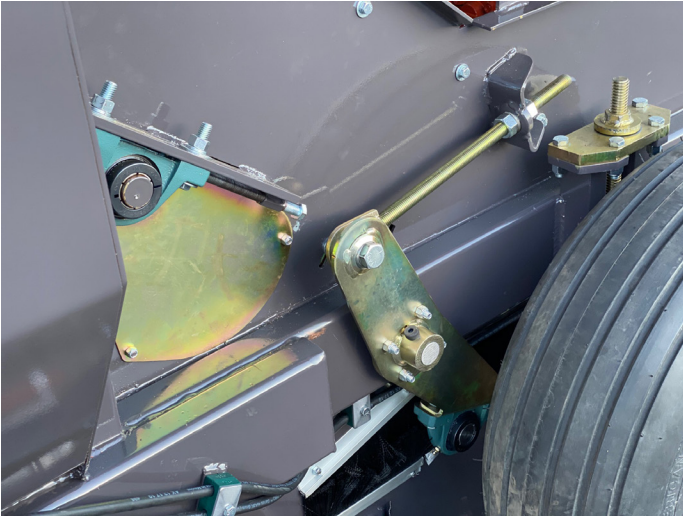

### CA5

<b>Width</b>	99"
<b>Length</b>	250"
<b>Height</b>	95"
<b>Pick-Up Width</b>	48"
<b>Pick-Up Type</b>	48" Twin Rod Chain (Standard)
<b>Elevator Chain</b>	Twin Rod W/ Cleats (Standard)
<b>H.P. Requirements</b>	Minimum 66 H.P.
<b>Front Tire</b>	11L-15 X 15
<b>Rear Tire</b>	18L X 16.1SL
<b>Blower</b>	Hydraulic Adjustable Fan Speed (Standard)
<b>Pickup</b>	Hydraulic Adjustable Pickup (Standard)
<b>Elevator Chain</b>	Hydraulic Adjustable Discharge (Standard)
<b>Center Drum</b>	Hydraulic Adjustable Center Drum (Standard)

# Almond Harvester

## PEQUEA

Heavy duty tensioner extends the life of the pick up chain and makes maintenance a breeze.

Exclusive low profile, direct drive motor eliminates the need for drive chain adjustment or replacement.

The patented cleaning drum removes most of the dust and small debris collected from the windrow.

The auger flighting inside the drum forces the nuts to travel across over 60 feet of the cleaning slots. This process removes such a significant amount of debris that in many conditions the blower is not even used. This process virtually eliminates significant airborne dust.

The oversized tank and the standard oil cooler ensure a low operating temperature of the hydraulic fluid.
